

Year 10 Geography

Human Wellbeing

Environmental Change

Variation globally in wellbeing

defining wellbeing
 contrasting wealth, health and education
 mapping the differences
 Graphing wellbeing statistics from 28 countries

variations within countries

Differences within India
 Differences within Australia
 Rural-Urban divide

why it varies

population
 Gender
 Conflict
 Natural resources

Fertility Rates map and comparisons of rapid and slow growing populations
 Japan Rich Task: population change
 Gender inequality and population growth
 VR Darfur
 VR the displaced
 impacts of conflict

Improvements to wellbeing

Improving quality for the globe MDG/SDGs
 Individual improvements

What is change?

To land
 To air
 To water

Salinity
 Mining - Coltan
 Erosion
 Pollution - Beijing
 Ozone Layer
 Dams
 Pollution

What influences change?

Climate
 Populations growth
 Demand for resources

bushfires
 Saami
 C.O.T.S
 Adani Mining
 Chernobyl
 Mobile Phones

How do we respond to changes?

Rainforest destruction - Page 84 text
 Fighting Salinity at Lake Toolibin
 C.O.T.S

Fieldwork

Mungabareena Reserve/Norieul
 Environmental Feeling

Focus on what has changed and what has influenced change there? What has been the response to the changes
 Collect data around the school, create a choropleth map and analyse
